ADVANCED MEDICAL IMAGING: ADVANCED PROCEDURES REPORTING

KEY FACTS
Advanced Procedures Reporting (APR) is a 15 credit module aimed at experienced healthcare professionals who would like to further extend their role within a specialism of radiological reporting. Completed following Principles of Advanced Practice and in conjunction with Core Skills for Radiological Reporting module, APR allows you to develop your skills further in image interpretation within your negotiated radiological specialism and become competent in pattern recognition and image interpretation specific to your own area of practice. This module will equip you with the skills to be able to deal with a complex caseload and be effective in formulating diagnoses and communicating your reports both verbally and in writing.

Specialisms can include for example; Barium Swallow Reporting, HSG Reporting, CTC Reporting.

This module will enable you to contribute to a double reporting system.

OUR TEAM
Academics and clinical experts holding honorary lecturer appointments with the University of Salford have developed learning resources and will deliver the teaching for this module.
