

Withdrawals and Return to Title IV Funds Policy (R2T4)

Version Number 1.2

Effective from 1 June 2023

**Author: US Loans Administrator
Finance Department**

1.0 Purpose

The University is required to complete a Return to Title IV (R2T4) calculation for US Federal loan recipients who withdraw from their studies during the course of the [academic year](#). The academic year is divided into three trimesters and R2T4 will be calculated at any point during the academic year, when required. The withdrawal may be an official, unofficial or a result of academic failure. An R2T4 calculation may also be required if a student has an interruption to their studies.

2.0 Scope

This policy applies to all students registered at the University of Salford and who are in receipt of US federal financial support via the following financial programmes:

- Federal Direct Subsidized Loan;
- Federal Direct Unsubsidized;
- Federal Direct PLUS Loans.

3.0 Policy Statements

3.1 Withdrawal

A student may either withdraw from their course or be required to withdraw for a range of reasons, including:

- Academic failure;
- As a result of disciplinary action;
- A student no longer wishes to continue on their programme;
- Poor attendance at scheduled teaching sessions or engagement with the programme.

A student in receipt of US federal financial support who withdraws from their course, whatever the reason, must advise the [US Loans Administrator](#) within 5 working days. In addition, if it is the student's decision to withdraw, the [Student Engagement Interruption Withdrawal Policy](#) and formally notify the University of their decision through the [Student Self-Service Portal](#).

For the purposes of US loans, if the student informs the University of their decision to withdraw before the official record is updated, then the date provided by the student will be the date used on the R2T4 calculation assuming that this date can be verified as the last date of attendance, either by the programme team, or by the last date of access to University systems/buildings.

The [US Loans Administrator](#) is responsible for the R2T4 calculation and the Finance Department is responsible for transferring the funds.

If a student withdraws without notifying the US Loans administrator, this will be picked up on monthly enrolment status checks. Once a student shows as withdrawn, US loans administrator will contact the School of the withdrawn student to request date of withdrawal. This could be last day student attended class, submitted work, took exam, attended study group.

3.2 R2T4 Calculation Following Withdrawal

The US Loans Administrator will calculate, using the R2T4 spreadsheet, the types and amounts of US Federal loan which must be returned following withdrawal. These funds must be returned to the US Department of Education. The return amount will be calculated using the number of days the student attended in the given term and the total number of days in the given term. In some instances the calculation may determine that no funds be returned.

3.3 Interruption of Study

Students wishing to take a leave of absence from their studies (also known as an interruption of study) will need to apply for this using the online [student portal service](#). Leave cannot exceed 180 days, and students must resume their studies at the same point they departed. If the student cannot resume studies at the point they left off academically within 180 days, request for leave of absence/interruption of study will not be approved. The student will then be withdrawn and R2T4 calculation will be performed. Loans will not be disbursed at this time and students will not accrue additional charges resulting from the leave. Further information about interruption of study can be found in the [Student Engagement Interruption Withdrawal Policy](#).

A student in receipt of US federal financial support who interrupts from their course for more than 180 days must advise the [US Loans Administrator](#) within 5 working days of the interruption. An interruption of study may affect student's loans repayment grace period.

3.4 Academic Failure/Failure to Progress

Where a student fails assessments or modules, the [US Loans Administrator](#) (or nominee) will contact the student to establish the nature of the failure, for example, if assessments have been taken and failed or if the failure is due to unauthorised non-attendance. If Satisfactory Academic Progress (SAP) has not been achieved then the [Satisfactory Academic Progress Policy](#) will be initiated.

If it is determined that failure has occurred due to non-attendance, then the last date of attendance or engagement will be used in the R2T4 calculation. Students who do not attend any classes are ineligible for US loans and as a result their loans will be cancelled.

3.5 Tuition Fee Calculation

Following official withdrawal or interruption, the University will review a student's tuition fee account and will consider if a refund is appropriate in line with [Key Facts about Fees](#). This document outlines the University's tuition fee refund policy.

3.6 Post Withdrawal Disbursements

If a student does not receive their disbursement at the beginning of the payment period and decides to withdraw, the student is eligible for the amount of loan earned in this period. The loan amount will be calculated and offered as a post-withdrawal disbursement. The University will complete the Title IV calculation and notify the student of any loans overpayment or post-withdrawal disbursement.

The University will make any post-withdrawal disbursement available to the student (or parent in the case of a Parent PLUS loan) within 180 days from the date of the withdrawal.

3.7 Return of Overpayment – Withdrawal and Interruption of Study (180 days or more)

US Federal Loan recipients who receive an overpayment resulting from changes in enrolment, cost of attendance and general eligibility will be required to return the necessary funds to eliminate overpayments within a time frame notified by the US Loans Administrator.

In accordance with federal regulations, refunds are allocated in the following order:

University of Salford

- Unsubsidized Direct loans;
- Subsidized Direct loans;
- Direct PLUS loans.

The following calculation has been provided by the US Department of Education to calculate the amount of unearned funds:

$$\text{Amount of loan funds earned} = \frac{\text{Number of days enrolled on the programme}}{\text{Total Number of days in the payment period}}$$

3.8 Calculation of Title IV Entitlement

Where a student withdraws or interrupts study after completing 60% of the payment period, they are deemed to have earned 100% of the loan funds therefore there is no requirement to return funds.

In cases where students have received more loan funds than earned, the unearned funds must be returned to the US Department of Education by the University or the student. If the student has earned less than the earned amount of loan funds, the difference could be paid as a post withdrawal disbursement.

The University will collect any unearned us loan funds required to be returned from the student.

3.9 Responsibilities

The University's responsibilities in regard to the return of Title IV funds (R2T4 calculation) include:

- providing each student with the information given in this policy
- identifying students who are affected by this policy and completing the R2T4 calculation within 30 days of the withdrawal date, and notifying those students of any earned direct loan funds, that have not been disbursed, and
- returning to Title IV programs any Title IV funds which have been applied to tuition fees.

Student responsibilities include:

- notifying the University of the student's intent to withdraw from all courses,
- returning any funds that were disbursed directly to the student and for which the student was determined to be ineligible through the R2T4 calculation, and,
- to include returning unearned aid and repayment will be in accordance to the terms of the student's promissory note.

Federal regulations require the University to return unearned funds directly to the Department of Education within 45 days of the date when the University determined that a student withdrew from studies or interrupted studies. If the return of the funds creates a balance due on the student account the student will be responsible for payment of the full balance on their account.

Credit balance refund for withdrawn students will be put on hold until R2T4 is calculated. The regulatory timeframe for any credit balance payment is 14 days from the day R2T4 is calculated.

The University will provide written notification within 30 days of the withdrawal date of the following:

- type of fund and amount
- option to accept or decline some or all funds
- obligation to repay any loan fund dispersed, and
- a deadline to respond of at least 14 days

3.10 Visa Requirements

The University is required to inform UK Visas & Immigration of any change of enrolment for international students.

3.11 Drug Related Offences

Eligibility for US Loans may be affected if a student in receipt of US Federal Funding is convicted of drug related offences and may result in the return of funds. Students are directed to the [Code of Conduct for Students](#) for information about expectations of students.

4.0 Further Guidance

Please contact the [US Loans Administrator](#) if further information is required on this policy.
